Program Overview

Esthetics

The Esthetics program teaches students a scientific approach to corrective and protective skin care. The program covers the use of various machineries such as galvanic current, high frequency, rotary brush peeling, pneumopatted vacuum and ionic vapor used by skin type during the facial or facial. The program also teaches ear piercing, color draping, cosmetics and other related topics such as Aromatherapy, Consultation, Color Draping, Cosmetics, Masks, Make-up, Salon Management, Massage, Nutrition, Preparation, and Waxing. **This program consists of the courses, Skin care and Cosmetics and must be taken with Fundamentals and the Skin Care Clinic**, either as a specialty program for a diploma (graduation certificate) or used as an elective to the Hairdressing Program. A license is available in Pennsylvania and this program will cover exam preparations. **Graduation requires earning a minimum of 400 hours by satisfactory completion of the skin Care and Cosmetics course and additional weeks spent in a Skin Care Clinic and the Fundamentals class.** There are very few physical demands on the Esthetician. Some physical characteristics which may enhance working as a profitable professional are a steady hand, upper arm strength, and strong lower back. A small percentage of estheticians have been prone to develop carpal tunnel. Graduates will be qualified to work as Estheticians in a Licensed Cosmetology shop, Make-up Specialists in a Licensed shop or for a Cosmetic Line. A graduate is also able to own and operate their own Esthetics salon in Pennsylvania. This program prepares graduates for entry level employment as an esthetician, skin care consultant, make up artist and other esthetics related occupations. Upon Graduation a diploma will be awarded.

Program Overview

Nails

The Nails program covers all related aspects of being a profitable professional in the nail industry. Some of the topics covered are manicuring, pedicuring, sculpturing, tipping, wrapping, gel bonding, fibre glass extensions, massage, aromatherapy, paraffin spas and nail design both painted and airbrushed. **This program consists of the courses, Nail Technician and Nail Art and must be taken with Fundamentals and the Nail Care Clinic**, either as a specialty program for a diploma (graduation certificate) or used as an elective to the Hairdressing Program. A state license is available in Pennsylvania and this program will cover exam preparations. Nails prepares the student to be a profitable professional nail technician. There are few physical demands placed on a Nail Technician. Some physical characteristics which may enhance working as a profitable professional are lower arm strength, flexible wrists, and strong fingers. A small percentage of manicurists have been prone to develop carpal tunnel. **Graduation requires earning a minimum of 400 hours by satisfactory completion of the Nail Technician and Nail Art course and additional weeks spent in a Nail Care Clinic and the Fundamentals of Non-Hair services courses.** Upon graduation each student will be qualified to work in a Licensed Cosmetology or Manicuring shop or own and operate their own Nail Care (Manicuring) salon. This program prepares graduates for entry level employment as a manicurist, nail technician, nail artist and other nail related occupations. Upon Graduation a diploma will be awarded.

Program Overview

Electrolysis

This program teaches Electrolysis, Thermolysis, the Blend Electrolysis systems and other related subjects. Practice in probe insertion, sanitization and safety procedures plus the supporting theory will train students to remove hair as a profitable profession. Other subjects taught: Analysis, Consultations, Examinations, Exercises, Insertions, Probe Positioning, Problems, Procedures, Regrowth, Scheduling and Terminology. **This program consists of the courses, Electrolysis and must be taken with Fundamentals and the Electrolysis Clinic,** either as a specialty program for a diploma (graduation certificate) or used as an elective to the Hairdressing Program. Currently there is no licensure or exam available in the State of Pennsylvania for Electrolysis. However, if you wish to practice in a licensed beauty, skin or manicuring salon this program will have to be attached to a program leading to licensure in Pennsylvania. There are few physical demands on the electrologist. Some physical characteristics which may enhance working as a profitable professional are Flexible wrists, good eye sight, and a steady hand. A small percentage of electrologists have been prone to develop lower back strain and eye strain. **Graduation requires earning a minimum of 400 hours by satisfactory completion of the Electrolysis course and additional weeks spent in a Electrolysis Clinic and the Fundamentals of Non-Hair services courses.** Upon graduation each student receives a diploma (graduation certificate). This program prepares graduates for entry level employment as an Electrologist and other hair removal occupations.
